Our Financial Reporting & Compliance Portfolio

We believe in delivering practical, effective and implementable advice, having full context and relevance to business or commercial problem. Our professionals understand transactions, business nuances and therefore can go beyond the specific tax or regulatory issue to develop a solution that works. We firmly believe that we will be able to retain and grow with our clients only when we are able to provide such advice consistently, from engagement to engagement, from one year to the next.

In current business environment, tax and regulatory is much more than compliance planning and needs to be utilized as a competitive edge. Smart corporations have identified tax & regulatory as a separate function with identified goals to contribute to business and financial performance.

The company's ability to manage tax and regulations can directly impact its valuation. Our suite of services has been designed maximize value by implementing a strategy for future growth.

Accounting & Reporting

Our Accounting Support Services are designed to support clients right from initial set up of finance function, to support routine accounting / reporting requirements and to support any change management due to compliance with regulatory changes like GAAP, Taxation etc.

- **Setting up and managing finance function** - We have a three phased approach:

- **Regulatory compliance** – including Companies Act, Direct & Indirect Taxes and Employee related regulations
- **Accounting support** – including management reporting support; and
- **Payroll services** – including expatriate taxation
- **Change management** – Our GAAP specialists support organizations with management of changes due to regulatory changes like IFRS etc. Our typical approach entails the following:
